

welcome to 5th grade!

DEAR FUTURE FIFTH GRADERS,

We are very excited to get to teach the CLASS OF 2027!

As you enjoy your summer vacation, there are a few things you can do to help yourself be ready for a successful start to fifth grade. One of the most important things you can do is read every day, even if it is only for 20–30 minutes. Choose books, magazines, or articles that interest you, and practice talking or writing about what you read, including the main idea and important details.

You can also strengthen your writing skills over the summer. Keep a summer journal and write about your adventures, activities, or favorite memories.

Practice using complete sentences, correct capitalization, punctuation, and spelling. Writing stories, letters, or opinion pieces is another great way to become a stronger writer.

It is also important to continue practicing math. Review your multiplication and division facts until you can answer them quickly and accurately. Practice adding, subtracting, multiplying, and dividing larger numbers. You can also work on solving word problems and explaining your thinking as you find solutions.

Most importantly, have fun, spend time with family and friends, and enjoy your summer! A little practice throughout the summer can help you feel confident and ready for fifth grade. We are looking forward to meeting you and having a wonderful year together.

Have a great summer!

We can't wait to meet you in September!

SINCERLY,

Your Future Fifth Grade Teachers
